## BONAVISTA CAMPUS

In Fall 2023, all CNA students will be expected to have their own computer for use in their program of studies. All programs do not have the same technology requirements, so the College has identified four levels of computers based on the technology used throughout your entire program of studies. You can purchase any device as long as it meets the specific minimum hardware requirements for your program.

Technology and connectivity could come through a desktop, laptop or tablet but must meet the program technology requirements. For portability and productivity reasons, the College does recommend purchasing laptop devices.
