

# Customized TRAINING

*We're so much more.*

COLLEGE  
OF THE  
NORTH  
ATLANTIC

## CUSTOMIZED TRAINING

Customized training is designed to meet the needs of any business or organization. Training solutions are available for individuals, corporations, government, or networks of companies with similar training requirements.

Curriculum is custom designed to meet your specific training goals with a delivery timetable suited to your needs. From a one-day session to programs of several weeks, we deliver anytime, on-site or off-site with the appropriate training infrastructure and resources.

## RESPONSIVE TO YOUR NEEDS

We pride ourselves on being responsive to clients' needs. Business Development Officers located strategically throughout the province (at our 17 campuses) provide access to experts for the development of training to meet those needs.

## EXPERTISE

The expertise of our professional instructional and support staff enables us to offer relevant, just-in-time training for your business. We develop and customize both long-term and short-term training and applied research options for all industry sectors.

## OTHER SERVICES TO HELP YOU SUCCEED:

Ensure a positive return on your training investment with Corporate Training at College of the North Atlantic.

## WHAT PEOPLE ARE SAYING ABOUT US

*"Over the years I have had a very rewarding and productive relationship with College of the North Atlantic, not only on a professional basis, but also on a personal basis. Many times I have found the need to organize safety and professional development training for Serco personnel, and every time this has been made possible with the aid of College of the North Atlantic... often at very short notice."*

SERCO Facilities Management Inc.,  
Happy Valley-Goose Bay, NL

*"The training provided to our business was very helpful and gave us the opportunity we were looking for in training new skilled staff. All persons involved in coordinating this program were very helpful. We were so happy to get skilled people to meet our business needs."*

Sutreen Hardwoods,  
Eastport, NL

*"We found College of the North Atlantic's Placentia campus of tremendous value. The college's tourism training educated students employed with our summer projects. The college designed a special two-day training session in tourism awareness and essential skills for new employees – providing instructors and space and organizing the whole event for us. This is a great boost for tourism in our region and provided real value to students who participated."*

Avalon Gateway Tourism Association,  
Placentia, NL
