CERTIFICATIONS

In addition to the formal semester subjects listed in the program of studies, students in the Conservation Program are required to complete the following certifications prior to program graduation:

- Pressure Point Control Training
- Survival First Aid

NOTE: Students should be aware that additional fees apply for the above certifications, field trips/tours. Additional expenses will be necessary for the purchase of items of clothing which are required for scheduled labs.

SPECIAL REQUIREMENTS

Because of the extensive field exposure incorporated in this program, the student is required to acquire appropriate clothing for outdoor work.

TOURISM & NATURAL RESOURCES

Conservation Law Enforcement

Conservation Officers who are responsible for administering natural resources laws and regulations must be well versed in this area and capable of performing their duties and responsibilities. The Advanced-Diploma program will be of interest to students who have completed a related program in natural resources at the technician and baccalaureate level and who have career interests in conservation enforcement. The one-year advanced-diploma program is designed to supplement student's natural resource background and with specific learning opportunities in the area of conservation law enforcement.

This program prepares students for careers in conservation enforcement by focusing on the skills, competencies, and attitudes necessary to meet the needs of the natural resources law enforcement sector. The program combines practical, theoretical and experiential learning in the classroom and field, in College of the North Atlantic's facilities.

OBJECTIVES

1. To train students in the field of Conservation Enforcement
2. To develop practical, theoretical and experiential skills and competencies necessary for all aspects of Natural Resources Conservation Law Enforcement.
3. To provide knowledge and experience with a wide range of field and office equipment and techniques associated with Conservation Enforcement.
4. To provide the knowledge and attitudes that will enable students to identify natural resources conservation enforcement challenges and opportunities and to undertake measures and treatments as might be associated with natural resources protection, management and utilization.

EMPLOYMENT OPPORTUNITIES

Graduates of this program may obtain employment throughout Canada in a variety of Conservation Enforcement fields of protection and enforcement with Federal and Provincial Departments as well as the Private Sector.

TRANSFERABILITY

Graduates of Conservation Enforcement may elect to further their studies and obtain a Degree at a number of Canadian Universities.

ENTRANCE REQUIREMENTS

Applicants must have graduated from a recognized college or university with a diploma and or degree in a relevant natural resource program area.

Students must submit an official Preadmission Physical Examination and a Certificate of Conduct from the Royal Newfoundland Constabulary (RNC), the Royal Canadian Mounted Police (RCMP) or local provincial/municipal force prior to registration.
