

Textiles: Craft & Apparel Design

Textiles: Craft and Apparel Design provides a strong foundation in the skills and knowledge of design and construction for craft and apparel. Individuals with creative and artistic interests will learn by doing as they gain skills in drawing, design, sewing, embroidery and quilting, apparel construction, knitting, weaving, print and dye, and related areas.

Different skills, media and techniques are introduced in the first year of the program. Innovation and creativity are encouraged through contemporary applications of traditional skills and the incorporation of non-traditional materials into project ideas. The second year is an opportunity to focus on two studio areas. Students may choose to concentrate their studies in the areas of knitting, print and dye, embroidery and quilt, weaving, and/or apparel construction with a focus toward developing technical skills. Both years are supported by courses in computer applications, art and craft history, communication skills, entrepreneurial studies, portfolio development, proposal writing, and special projects.

The program strives for innovative training that reaches beyond the classroom. The emphasis is on “real life” experiences that include involvement in fine craft and design fairs, whole trade shows, gallery exhibitions, commissions, and fashion shows.

Graduates of the Textiles: Craft and Apparel Design program have a solid foundation to build a career as an independent textile artist or an employee in the craft and/or apparel industry. The program may also inspire individuals to pursue further studies in particular concentration areas.

OBJECTIVES

1. Develop skills and knowledge in craft and apparel and on-going technical innovation in all studio areas and creative processes.
2. Provide an opportunity for exploration and experimentation with a variety of creative and artistic techniques.
3. Provide a strong foundation in design competencies and applications.
4. Develop an increased awareness of and appreciation for fine art and craft, and their varying schools of philosophical thought.

5. Encourage a spirit of entrepreneurship, and to assist in the development of entrepreneurial skills through “real life” experiences.
6. Develop the ability to promote one’s work through the development of communication skills, portfolio development, and organizing special events.
7. Develop a desire for life-long learning.
