

Cabinetmaker

This program is designed to prepare trainees for employment opportunities in this field. They use a variety of woods and laminates to construct and repair wooden cabinets, furniture, fixtures and related products.

The Provincial Apprenticeship and Certification Board through legislative authority is responsible for the registration of apprentices and trade qualifiers into the designated occupations.

The registration of an apprentice will take place when an individual is employed in a field of work directly relating to a designated occupation and has a Memorandum of Understanding (MOU) signed between the Division of Institutional and Industrial Education, an employer and the apprentice.

After successful completion of the entry-level program, and the required work experience, the apprentices qualify to return to complete advanced level training in preparation for writing the Journeyperson's Examination.

OBJECTIVES

1. To develop the fundamental knowledge and the initial practical skills required as a cabinetmaker apprentice.
2. To instill in each graduate a responsible attitude toward the duties in the trade.
3. To enable graduates to develop and practice good safety habits.
4. To demonstrate problem-solving skills and high standards of craftsmanship.
5. To enable graduates to continue apprenticeship training.
