

Welcome to the New School Year

On behalf of the Campus Administrator team at the Prince Philip Drive Campus I would like to extend a warm welcome to new and returning students. We hope it will be a successful year for you academically and that your time with us as a student will be enjoyable.

As this is the beginning of the school year, there are a number of items that we would like to bring to your attention.

Renovations

As you can easily see by walking down our halls we are in the midst of major renovations which, by the end of the project, will improve many aspects of the building including heat and air conditioning. These renovations will cause challenges throughout the year and we ask for your understanding as we work to address them. These renovations will result in some added noise and classroom schedule changes can be anticipated as the activity moves throughout the building. Please be assured that we will try to minimize the impact on your studies and we will work with the contractors to ensure safety at all times.

Parking

The Prince Philip Drive Campus has limited parking space available and the construction activity may put an additional strain on this resource. Parking permits are required but please remember that your permit does not guarantee you a space. Car-pooling and/or public transport are options you may wish to consider.

No-smoking

The College has instituted a no-smoking policy provincially and as such there is no smoking allowed on the campus property. Please respect this policy as it is in place for the health and well-being of all occupants of the building.

If you have any particular concerns on these issues please feel free to contact any of the Campus Administration Team (Paul Forward, Trudy Barnes, Gerard Morris & Cathy Favre).

Thanks

Paul, Trudy, Gerard and Cathy
