

Comprehensive Arts & Science Transition

Do you need to improve high school marks to get into the college or university program of your choice?
Do you need pre-requisite courses for university, practical nursing, paramedicine, the trades or any college programs?
Are you a mature student looking for a refresher in Math, English or Science before you enter college or university?

Comprehensive Arts and Science College Transition is a post-secondary certificate program designed for students who:

- Want to meet entrance requirements to a specific college program;
- Want to explore post-secondary career options;
- Want to learn more about studying at a post-secondary institution;
- Want to increase their level of education beyond high school and improve employability skills;
- Have graduated from high school or Adult Basic Education.

Program courses include English, Mathematics, Biology, Chemistry, Physics, Career Exploration, Critical Thinking, Effective Learning, Reading Comprehension, and more. Study full-time or part-time; choose to complete the full program or any courses that you may require.
