

Updated: May 21, 2020

As our on-campus bookstores are not fully functional at this time, please use this list to source an e-textbook option for Intersession 2020. If you have any questions about your required text (for example using a different edition), please reach out to your instructor for confirmation PRIOR to purchasing. Many courses also utilize a textbook that you may already have from a previous course so please confirm before purchasing. If you have access to an existing paper textbook, there is no requirement to purchase an additional e-text.

If you require text-to-speech accommodations, all VitalSource purchases are accessible through the Read Aloud feature on their Bookshelf platform. Where other sources have been indicated, follow the instructions noted to purchase a textbook compatible with Kurzweil or other text-to-speech technology. If a textbook is not accessible as a direct digital purchase, or you purchase from another provider, contact your Resource Facilitator or Accessibility Services Coordinator to request an accessible text.

Other e-textbook related questions can be directed by email to: askalibrarian@cna.nl.ca
