How to Get Your Loan

A Master Student Financial Assistance Agreement (MSFAA) will be sent to you to complete. This agreement will only have to be completed once throughout your program. Some exceptions will apply. Read this agreement carefully, complete the required sections, and bring to a designated Canada Post Outlet (see website to get a list of Postal Outlets in your area). You also need to bring the following:

- ✓ **Social Insurance Card**
- ✓ **Void cheque – or the Electronic Funds Transfer section completed by your bank.**
- ✓ **Official government issued photo ID (valid driver's license, passport, provincial health card with a photo)**

Canada Post will forward the agreement to the National Student Loan Centre. Once full-time enrollment has been confirmed by your school, (no earlier than the first day of classes) eligible federal loans and grants will be deposited into your bank account in two installments: the federal is deposited first and the provincial follows within a day or two. You will receive a letter from the National Student Loans Service Centre advising you of the amount of your disbursement that has been issued to you and/or school. You can also visit the National Student Loans Service Centre website at CanLearn.ca for further information.
